## Blackpool Youth Climate Group Document

---

Blackpool Youth Climate Group brings young people from various community groups together to take positive action for climate justice. They are a collaboration of the Youth Voice Network, Junior Park Rangers and Resilience Revolution. They've also been working with Blackpool Council to run the 1st Youth Climate Summit 2021.

This document has been co-produced by the Blackpool Youth Climate Group and research partners from Boingboing and the CRSJ to explain how the group has been created and what they hope to achieve as Blackpool's dedicated Youth Climate Group. Download the Blackpool Youth Climate Document [here](#). Blackpool Youth Climate Group are working with [Viktoria Erlacher](#) (PhD student), [Henry Pollock](#) (Community co-researcher) and Sam Richardson (Project partner with the [Resilience Revolution](#)) to co-produce research that explores young people's opinions and feelings about climate change. You can read more about their research project [here](#).
